

**MASTER OF SCIENCE (INFORMATION  
SECURITY)  
(MSCIS)**

*MSCIS/ASSIGN/2024*

**ASSIGNMENTS  
JAN 2024**

**Semester-III**

**MSE-029, MSE-030, MSE-031, MCS-226 and MSEL-032**

**SCHOOL OF VOCATIONAL EDUCATION AND TRAINING  
INDIRA GANDHI NATIONAL OPEN UNIVERSITY  
MAIDAN GARHI, NEW DELHI – 110 068**

## *CONTENTS*

<b>Course Code</b>	<b>Submission-Schedule</b>	<b>Page No.</b>
	<b>Semester-III</b>	
<b>MSE - 029</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>	<b>5</b>
<b>MSE - 030</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>	<b>6</b>
<b>MSE - 031</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>	<b>7</b>
<b>MCS - 226</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>	<b>8</b>
<b>MSEL-032</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>	<b>10</b>

### **Guidelines regarding submission of assignments**

1. It is compulsory for the students to submit the prescribed assignments. They will not be allowed to appear for the term-end examination of a course if they do not submit the assignments in time for that course.
2. The assignment responses should be complete in all respects. Before submission, the students should ensure that they have answered all the questions in all assignments. Incomplete answer sheets bring poor grades.
3. The University/ Regional Centre have the right to reject the assignments received after the due date. Therefore, the students are advised to submit their assignments before the due date.
4. Students should submit before the last dates prescribed for submission of assignments.
5. In case the students have already done some assignments prescribed in a course, they are required to do the **left-over assignments before taking the Term-end Examination**. If they have qualified in a course on the basis of lesser number of assignments and Term-end Examination, they will **not be eligible to re-do the assignments** with a view to improve the overall qualifying score of that course.
6. In case any student fails to submit the assignments or fails to score minimum qualifying marks, s/he has to wait for fresh assignments meant for the current batch of students.
7. For their own record, students should retain a copy of all the assignment responses, which they submit.
8. Once the students get the pass marks in an assignment, they can not re-submit it for improvement of marks. If the student secured requisite marks in Term-End Examination and Assignments, but did not get requisite overall percentage, then the student can either resubmit the assignment or reappear for the term-end examination for securing the requisite overall percentage.
9. Assignments are not subject to re-evaluation.

### **Instructions for Doing Assignments**

While answering Assignments, the following guidelines are required to be observed:

1. The student should write their Complete correct Enrolment Number, Name, Full Address, Signature and Date on the top right hand corner of the first page of the response sheet.
2. The students should write the Programme Title, Course Code and Course Title on the left hand corner of the first page of their response sheet. Course code may be reproduced from the assignment.

The top of the first page of your response sheet for each assignment should look like this:

---

PROGRAMME TITLE: ..... ENROLMENT No.: .....  
COURSE CODE: ..... NAME : .....  
COURSE TITLE: .....  
ADDRESS:.....  
SIGNATURE: .....  
DATE: .....

---

3. The students should write the responses in their own hand. **They should not print or type the answers. They should not reproduce their answers from the units sent to them by the University. If they reproduce from units, they will get poor marks for the respective question.**
4. The students should write each assignment separately. All the assignments should not be written in continuity.
5. The students should write the question number with each answer.
6. The students should use only foolscap size paper for their response and tie all the pages carefully. Avoid using very thin paper. They should allow a 4 cm. margin on the left and at least 4 lines in between each answer. This may facilitate the evaluator to write useful comments on the margins at appropriate places.
7. The students should not copy from the response sheets of other students. If copying is noticed, the assignments of such students will be rejected, and disciplinary action can be taken against the students as per rules of the University.
8. **Please remember that it is compulsory to send scanned copies of handwritten assignments through email to the respective Regional Centre email or upload on the link provided on the respective Regional centre's website or the hard copy of handwritten assignments to your concerned Regional centre/Study centre before you can take the Term End Exams or else you will not be issued hall tickets.**

**Under no circumstances should they be sent to the (SED) for evaluation.**

<b>Course Code</b>	<b>:</b>	<b>MSE-029</b>
<b>Course Title</b>	<b>:</b>	<b>Cyber Attack: Use of Technology in Cyberspace</b>
<b>Maximum Marks</b>	<b>:</b>	<b>100</b>
<b>Weightage</b>	<b>:</b>	<b>30%</b>
<b>Last date of Submission</b>	<b>:</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>

**Attempt any five questions out of seven questions. Each question carries 20 marks. You may use illustrations and diagrams to enhance the explanations. Please go through the guidelines regarding assignments given in the Programme Guide for the format of presentation.**

- Q1:** What is the classification and types of networks? Explain in detail with examples.
- Q2:** What are types of Security attacks? Explain different vulnerabilities with examples.
- Q3:** Explain triad's components of Cybersecurity in detail.
- Q4:** List out the Cybercrimes groups and describe the primary categories of Cybercrime with examples.
- Q5:** What do you mean by Penetration testing? Describe Pen Testing Process and Penetration testing methods.
- Q6:** Describe steps of Server Security in detail.
- Q7:** What do you mean by OSINT Tools. Discuss different OSINT Tools in detail.

<b>Course Code</b>	<b>:</b>	<b>MSE-030</b>
<b>Course Title</b>	<b>:</b>	<b>Cloud and Infrastructure Security</b>
<b>Maximum Marks</b>	<b>:</b>	<b>100</b>
<b>Weightage</b>	<b>:</b>	<b>30%</b>
<b>Last date of Submission</b>	<b>:</b>	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>

**Attempt any five questions out of seven questions. Each question carries 20 marks. You may use illustrations and diagrams to enhance the explanations. Please go through the guidelines regarding assignments given in the Programme Guide for the format of presentation.**

**Q1:** Discuss Characteristics, Benefits, Applications and challenges of Cloud Computing.

**Q2:** Explain Cloud deployment models in detail.

**Q3:** Explain Cloud architecture and layers of Cloud anatomy in detail.

**Q4:** Discuss important characteristics of virtualization.

**Q5:** What is Resource Pooling? Describe Resource Pooling architecture in detail.

**Q6:** What do you mean by Scaling and explain its strategies in detail.

**Q7:** Discuss auto scaling in cloud.

**Course Code** : **MSE-031**  
**Course Title** : **Cyber Security using Python**  
**Maximum Marks** : **100**  
**Weightage** : **30%**  
**Last date of Submission** : **31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)**

**Attempt any five questions out of seven questions. Each question carries 20 marks. You may use illustrations and diagrams to enhance the explanations. Please go through the guidelines regarding assignments given in the Programme Guide for the format of presentation.**

**Q1:** Briefly discuss about the concepts of UBUNTU for Python. Which word is used before every command for a user for running commands in LINUX terminal? Give your examples.

**Q2:** Describe Object Oriented approach, Classes and Methods, Libraries, Networking for Python.

**Q3:** What do you mean by Cyber Security? Describe importance, threats, purpose and benefit of python for Cyber security.

**Q4:** Describe Python Libraries for Cyber Security. How is Python used in Pen Testing.

**Q5:** What do you mean by Cryptography? Describe its data security techniques.

**Q6:** Describe basics of Networking. How many communication links are required to connect 'n' devices in case of mesh topology.

**Q7:** a) How Social media platforms can be used to expand intelligence?  
b) Explain malicious web scraping and its uses.

<b>Course Code</b>	:	<b>MCS-226</b>
<b>Course Title</b>	:	<b>Data Science and Big Data</b>
<b>Assignment Number</b>	:	<b>MCA(III)/226/Assignment/2022</b>
<b>Maximum Marks</b>	:	<b>100</b>
<b>Weightage</b>	:	<b>30%</b>
<b>Last date of Submission</b>	:	<b>31<sup>st</sup> March, 2024 (For latest update, Pl. check IGNOU's Website)</b>

**This assignment has ten questions of 8 Marks each, answer all questions. Rest 20 marks are for viva voce. You may use illustrations and diagrams to enhance the explanations. Please go through the guidelines regarding assignments given in the Programme Guide for the format of presentation.**

Q1: What is Exploratory Data Analysis (EDA) and why is it important in the data science workflow? What are the key components of the data science process?

Q2: Discuss the implications of hypothesis testing results in decision-making. Provide examples of realworld situations where statistical hypothesis testing is commonly used.

Q3: What is data preprocessing, and why is it a crucial step in the data science workflow? Why is it important to identify and handle outliers in a dataset during data preprocessing?

Q4: Discuss the significance of the three Vs (Volume, Velocity, Variety) in the context of big data. Provide examples of each of the three Vs in real-world scenarios. How does MapReduce facilitate parallel processing of large datasets? Explain the functionality of the Map function in the MapReduce paradigm with the help of an example.

Q5: Explain the purpose of Apache Hive in the Hadoop ecosystem. How does Spark address limitations of the traditional MapReduce model?

Q6: Define NoSQL databases and explain the primary motivations behind their development. Provide examples of scenarios where each type of NoSQL database is suitable.

Q7: How does collaborative filtering contribute to enhancing user experience and engagement in recommendation systems? Provide examples of industries or platforms where collaborative filtering is widely used.

Q8: What is a Data Stream Bloom Filter? Explain its primary purpose in data stream processing. Also, introduce the Flajolet-Martin Algorithm and its role in estimating the cardinality of a data stream.

Q9: Describe the role of link analysis in the PageRank algorithm. How are links between web pages interpreted in the context of PageRank?

Q10: Explain the concept of decision trees in classification. Provide an example of building and visualizing a decision tree using R. How can K-means clustering be applied to a dataset in R?

**Course Code** : **MSEL-032**  
**Course Title** : **Practical (Cyber  
Attacks, Cloud  
Security and Data  
Recovery etc)**  
**Maximum Marks** : **100**  
**Weightage** : **30%**  
**Last date of Submission** : **31<sup>st</sup> March, 2024 (For latest update, Pl. check  
IGNOU's Website)**

**This assignment has two Questions, answer all questions. Each Question is of 20 marks. Your Lab Records will carry 40 Marks (20 Marks for each Question). Rest 20 marks are for viva voce. You may use illustrations and diagrams to enhance the explanations. Please go through the guidelines regarding assignments given in the programme guide for the format of presentation.**

**Note: You must execute the program and submit the program logic, sample input and output along with the necessary documentation. Assumptions can be made wherever necessary.**

**Q1: Discuss the Deployment of OpenStack using DevStack with all steps.**

**(20 marks)**

**Q2: Explain Man in the middle attack (MITM) using Ettercap**

**(20 marks)**

**Note: Make necessary assumptions if any.**
