	<b>Semester-1</b>	
<b>MSEI - 021</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>5</b>
<b>MSEI - 022</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>6</b>
<b>MSEI - 023</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>7</b>
<b>MSE - 024</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>8</b>
	Semester-II (applicable for those PGDIS learners who got re- registered for 2 <sup>nd</sup> semester)	
<b>MSEI - 025</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>9</b>
<b>MSEI - 026</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>10</b>
<b>MSEI - 027</b>	<b>31th October, 2023</b> For latest updates, refer SED Notification On IGNOU's website	<b>11</b>

### **Guidelines regarding submission of assignments**

1. It is compulsory for the students to submit the prescribed assignments. They will not be allowed to appear for the term-end examination of a course if they do not submit the assignments in time for that course.
2. The assignment responses should be complete in all respects. Before submission, the students should ensure that they have answered all the questions in all assignments. Incomplete answer sheets bring poor grades.
3. The University/ Regional Centre have the right to reject the assignments received after the due date. Therefore, the students are advised to submit their assignments before the due date.
4. Students should submit before the last dates prescribed for submission of assignments.
5. In case the students have already done some assignments prescribed in a course, they are required to do the **left-over assignments before taking the Term-end Examination**. If they have qualified in a course on the basis of lesser number of assignments and Term-end Examination, they will **not be eligible to re-do the assignments** with a view to improve the overall qualifying score of that course.
6. In case any student fails to submit the assignments or fails to score minimum qualifying marks, s/he has to wait for fresh assignments meant for the current batch of students.
7. For their own record, students should retain a copy of all the assignment responses, which they submit.
8. Once the students get the pass marks in an assignment, they can not re-submit it for improvement of marks. If the student secured requisite marks in Term-End Examination and Assignments, but did not get requisite overall percentage, then the student can either resubmit the assignment or reappear for the term-end examination for securing the requisite overall percentage.
9. Assignments are not subject to re-evaluation.

### **Instructions for Doing Assignments**

While answering Assignments, the following guidelines are required to be observed:

1. The student should write their Complete correct Enrolment Number, Name, Full Address, Signature and Date on the top right hand corner of the first page of the response sheet.
2. The students should write the Programme Title, Course Code and Course Title on the left hand corner of the first page of their response sheet. Course code may be reproduced from the assignment.

The top of the first page of your response sheet for each assignment should look like this:

---

PROGRAMME TITLE: ..... ENROLMENT No.: .....  
COURSE CODE: ..... NAME : .....  
COURSE TITLE: .....  
ADDRESS:.....  
SIGNATURE: .....  
DATE: .....

---

3. The students should write the responses in their own hand. **They should not print or type the answers. They should not reproduce their answers from the units sent to them by the University. If they reproduce from units, they will get poor marks for the respective question.**
4. The students should write each assignment separately. All the assignments should not be written in continuity.
5. The students should write the question number with each answer.
6. The students should use only foolscap size paper for their response and tie all the pages carefully. Avoid using very thin paper. They should allow a 4 cm. margin on the left and at least 4 lines in between each answer. This may facilitate the evaluator to write useful comments on the margins at appropriate places.
7. The students should not copy from the response sheets of other students. If copying is noticed, the assignments of such students will be rejected, and disciplinary action can be taken against the students as per rules of the University.
8. **Please remember that it is compulsory to send scanned copies of handwritten assignments through email to the respective Regional Centre email or upload on the link provided on the respective Regional centre's website or the hard copy of handwritten assignments to your concerned Regional centre/Study centre before you can take the Term End Exams or else you will not be issued hall tickets.**

**Under no circumstances should they be sent to the (SED) for evaluation.**

**Course Code** : **MSEI-021**  
**Course Title** : **Introduction to Information Security**  
**Maximum Marks** : **20**

**Last date of Submission** : **31th October, 2023**  
For latest updates, refer SED Notification  
On IGNOU's website

**There are two questions in this assignment. Answer all the questions. You may use illustrations and diagrams to enhance your explanations.**

**Question 1:** The OSI model is not a single definition of how data communications actually takes place in the real world. It is functionally layered and numerous protocols exist at each layer. Explain these layers in detail.

**(10 Marks)**

**Question 2:** Without adequate network security, many individuals, businesses, and governments risk losing that asset. Do you agree? Explain in detail.

**(10 Marks)**

**Course Code** : **MSEI-022**  
**Course Title** : **Network Security**  
**Maximum Marks** : **20**  
**Last date of Submission** : **31th October, 2023**  
**For latest updates, refer SED Notification**  
**On IGNOU's website**

**There are two questions in this assignment. Answer all the questions. You may use illustrations and diagrams to enhance your explanations.**

**Question 1:** Security protocols are critical applications, since they are crucial to achieve trusted computing. Do you agree? Explain in detail.  
**(10 Marks)**

**Question 2:** Security implies security provided for the transfer of data between the two communicating end points. There are three elements to this security, namely, Authentication, Integrity and Privacy. Explain in detail.  
**(10 Marks)**

**Course Code** : **MSEI-023**  
**Course Title** : **Cyber Security**  
**Maximum Marks** : **20**

**Last date of Submission** : **31th October, 2023**  
For latest updates, refer SED Notification  
On IGNOU's website)

**There are two questions in this assignment. Answer all the questions. You may use illustrations and diagrams to enhance your explanations.**

**Question 1:** All the security measures that the organization adopts go in vain when employees get “social engineered” by strangers. Do you agree with this statement and also suggest the measures. **(10 Marks)**

**Question 2:** The Internet is not just a vast array of computers connected to each other. There are a host of networking devices like the router, which control the data traffic between and within networks. Explain Internet routing in detail? **(10 Marks)**

**Course Code** : **MSE-024**  
**Course Title** : **Policy, Standards and Laws**  
**Maximum Marks** : **30**  
**Last date of Submission** : **31th October, 2023**  
**For latest updates, refer SED Notification**  
**On IGNOU's website**

**There are three questions in this assignment. Answer all the questions. You may use illustrations and diagrams to enhance your explanations.**

**Question 1:** Standards make an enormous and positive contribution to most aspects of our lives. Can you explain these standards in detail.

**(10 Marks)**

**Question 2:** What is disposable crypto? Because of its facilitation of privacy, and the diminution of privacy attendant on its prohibition, cryptography is also of considerable interest to civil rights supporters. But there have been a lot of controversial legal issues surrounding cryptography. Please throw light on such legal issues.

**(10 Marks)**

**Question 3:** Digital signatures provide benefits by enabling the replacement of slow and expensive paper-based approval processes with fast, low-cost, and fully digital ones. Do you agree on this statement? Why and also explain some digital signature algorithms.

**(10 Marks)**

**Course Code** : **MSEI-025**  
**Course Title** : **Application and Business Security Developments**  
**Maximum Marks** : **20**

**Last date of Submission** : **31th October, 2023**
