C++ PROGRAMMING LAB

Time : 1 Hour

Maximum Marks : 50

Note : (i) There is *one* compulsory question of 40 marks in this paper.

(ii) Rest of 10 marks are for viva-voce.

(A-10) P. T. O.

1. Write a C++ program to create an Array class. This class should have array of integers as its data member. Define appropriate constructor and destructor for this class. Define method Find_Element() to find a given value in Array object. Define method Average() to find the average of array elements in the Array object.
