

**MASTER OF ARTS (DISTANCE
EDUCATION)
(MADE)**

Term-End Examination

December, 2023

MDE-412 : INSTRUCTIONAL DESIGN

Time : 3 Hours

Maximum Weightage : 75%

Note : Answer all the **three** questions. All questions carry equal weightage.

1. Answer any **one** of the following questions in about **1200** words :
 - (a) Discuss 'information processing theory' and explain its implications for designing learning materials.
 - (b) Do you think the multimedia approach to learning will help in catering to the different learning styles of learners ? Substantiate your answer with illustrations.

2. Answer any **four** of the following questions in about **300** words each :
- (a) Explain the process of stimulus and response theory in classical conditioning. Discuss how this is applied in distance learning.
 - (b) Describe the *six* stages of ASSURE model.
 - (c) Explain SMART objectives with the help of examples.
 - (d) What are the different seating plans that can be used in a training room ? Describe with the help of illustrations.
 - (e) Discuss the need of 'learner analytics' in designing instruction. How can learner analytics be useful in distance education ? Support your answer with suitable examples.
3. Answer any **one** of the following questions in about **1200** words :
- (a) Select a topic of your choice and prepare a self-learning unit involving various steps of instructional design.
 - (b) Suppose that you have been given an opportunity to design a Bachelor's Degree Programme in your discipline for distance learners. Which of the ID models would you select and why ?
