   (ii)   *25 marks are for viva-voce.*

---

1.   Create a VB application to generate table of any number between 1-20. If number   **25**
     entered is not between 1-20 then display appropriate message.

2.   Create a VB application to display grade of student after taking percentage marks as   **25**
     input. Follow following table for grade generation :

80 - 100%	Excellent - A
60 - 79%	Good - B
40 - 59%	Average - C
Less than 40	Poor - D
