

MCSL-016(Set-3)
MCA/PGDCA/BCA (REVISED)
Internet Concepts and Web Design

Duration: 2 hours

Maximum Marks: 50

Note: 1. There are two compulsory questions this paper. Question no. 1 is of 10 marks and question no. 2 is of 30 marks. The remaining 10 marks are for viva-voce.

1. Write a JavaScript code to concatenate two strings. 10
2. Design the following form using HTML/JavaScript. 30

First Name	<input style="width: 95%;" type="text"/>
Last Name	<input style="width: 95%;" type="text"/>
Semester	<input style="width: 45%; text-align: center; value: II;" type="text"/> <input style="width: 5%; text-align: center;" type="button" value="▼"/>
Fee Amount	<input style="width: 95%;" type="text"/>
Passed all the earlier semesters:	
Yes	<input type="radio"/>
No	<input type="radio"/>
<input style="border: 1px solid black; padding: 5px 20px;" type="button" value="SUBMIT"/>	

- The purpose of SUBMIT button is to enter all the fields data in to a database.
- You must use JavaScript to validate the fields of first name, last name, semester and Fee.

The validation should check that values must be entered in these fields
