

ASSIGNMENT BOOKLET

**Bachelor's Degree Programme
B.Sc. Honours in Biochemistry (BSCBCH)**

**NUTRITIONAL BIOCHEMISTRY
(Valid from 1st July, 2022 to 30th June, 2023)**

**School of Sciences
Indira Gandhi National Open University
Maidan Garhi, New Delhi-110068
(2022-2023)**

Dear Student,

Please read the section on assignments in the Programme Guide of B.Sc. (Hons.) Biochemistry (BSCBCH) programme that we sent you after your enrolment. A weight age of 30 percent, as you are aware, has been earmarked for continuous evaluation, **which would consist of one tutor-marked assignment** for this course. The assignment is in this booklet, and it consists of two parts, Part A and B. It covers all blocks of the course. The total marks of all the parts are 100, of which 35% are needed to pass it.

Instructions For Formatting Your Tutor Marked Assignments (TMA)

Before attempting the assignment please read the following instructions carefully:

1) On top of the first page of your answer sheet, please write the details exactly in the following format:

You may reproduce the Course Code and Assignment Code from the assignment.

**ENROLMENT
NO.:**

PROGRAMME TITLE	:	NAME:
COURSE CODE	:	ADDRESS:
COURSE TITLE	:
ASSIGNMENT CODE	:	SIGNATURE:
STUDY CENTRE	:	DATE:

**PLEASE FOLLOW THE ABOVE FORMAT STRICTLY TO FACILITATE
EVALUATION AND TO AVOID DELAY.**

2. Use only foolscap size paper for your response and tie all the pages carefully. Avoid using very thin paper. Allow a 4 cm margin on the left and at least 4 lines in between each answer. This would facilitate the evaluator to write useful comments in the margin at appropriate places.
3. Write the responses in your own handwriting. Do not print or type the answers. Do not copy your answers from the Units/Blocks sent to you by the University. It is advised to write your answers in your own words as it will help in grasping the study material.
4. Do not copy from the response sheets of other students. If copying is noticed, the assignment will be rejected.
5. Write each assignment separately. All the assignments should not be written in continuity.
6. Write the question number with each answer.
7. **The completed assignment should be submitted within the due date** to the Coordinator of the Study Centre allotted to you. TMAs submitted at any other place and after due date will not be evaluated.
8. After submitting the TMA, get the acknowledgement from the Coordinator on the prescribed assignment remittance-cum-acknowledgement card. **We strongly suggest that you retain a copy of your answer sheets.**
9. In case you have requested for a change of Study Centre, you should submit your TMA only to the original Study Centre until the change of Study Centre is notified by the University.
10. This assignment is **valid from 1st Jul, 2022 to 30th Jun, 2023**. If you have failed in this assignment or fail to submit it by Jun, 2023, then you need to get the assignment for the year 2023-24, and submit it as per the instructions given in the Programme Guide.
11. **You cannot fill the examination form for this course** until you have submitted this assignment.

We wish you good luck.

ASSIGNMENT

Metabolism of carbohydrates and lipids Core Course in Biochemistry

Course Code: **BBCET-141**

Assignment code: **BBCET-141/TMA/2022-2023**

Maximum marks: **100**

Note: Attempt all questions. The marks for each question are indicated against it.

Write the answers in your own words; do not copy from the course material.

PART-(A)

Marks: 50

1. Explain the following terms in 2-4 lines: (5X2= 10)
 - (a) Macronutrients
 - (b) Estimated average requirements
 - (c) Dietary guidelines
 - (d) Respiratory quotient
 - (e) Glucose tolerance test

2. (a) Explain total energy expenditure of a non- growing individual and its different components. (5)
(b) Which different methods are used to measure the energy expenditure of an individual? Explain any one. (5)

3. (a) Define Z- score. What information does it give about the nutritional status of an individual? (5)
(b) Write significance of pentose phosphate pathway and uronic acid pathway. (5)

4. (a) What are the beneficial effects of taking diet rich in fibers? (5)
(b) What are essential fatty acids? Explain their metabolic functions. (5)

5. (a) Illustrate the role of proteins in transportation of biological molecules with the help of suitable examples. (5)
(b) Explain the digestion and absorption of proteins with the help of a suitable diagram. (5)

PART- (B)

Marks: 50

6. (a) Explain the biochemical functions of vitamin A. (5)

- (b) How is vitamin D important in calcium absorption? (5)
7. (a) Explain the deficiency diseases of vitamin B3? (5)
(b) Give two examples each of NAD and FAD dependent enzymes. Also name the vitamins from which these cofactors are derived. (5)
8. (a) Write the biochemical functions of vitamin C and B₁₂. (5)
(b) How is alcohol consumption associated with nutritional deficiencies? (5)
9. (a) What is metabolic syndrome? (5)
(b) Explain three risk factors of cardiovascular diseases. (5)
10. Write short notes on: (2X5)
(a) Food additives and aultrants
(b) Food allergy and intolerance
