

ASSIGNMENT BOOKLET

**Bachelor's Degree Programme
B.Sc. Honours in Biochemistry (BSCBCH)**

BASIC MICROBIOLOGY
(Valid from 1st January, 2024 to 31st December, 2024)

**School of Sciences
Indira Gandhi National Open University
Maidan Garhi, New Delhi-110068
(2024)**

Dear Student,

Please read the section on assignments in the Programme Guide of B.Sc. (Hons.) Biochemistry (BSCBCH) programme that we sent you after your enrolment. A weight age of 30 percent, as you are aware, has been earmarked for continuous evaluation, **which would consist of one tutor-marked assignment** for this course. The assignment is in this booklet, and it consists of two parts, Part A and B. It covers all blocks of the course. The total marks of all the parts are 100, of which 35% are needed to pass it.

Instructions For Formatting Your Tutor Marked Assignments (TMA)

Before attempting the assignment please read the following instructions carefully:

1) On top of the first page of your answer sheet, please write the details exactly in the following format:

You may reproduce the Course Code and Assignment Code from the assignment.

**ENROLMENT
NO.:**

PROGRAMME TITLE	:	NAME:
COURSE CODE	:	ADDRESS:
COURSE TITLE	:
ASSIGNMENT CODE	:	SIGNATURE:
STUDY CENTRE	:	DATE:

**PLEASE FOLLOW THE ABOVE FORMAT STRICTLY TO FACILITATE
EVALUATION AND TO AVOID DELAY.**

2. Use only foolscap size paper for your response and tie all the pages carefully. Avoid using very thin paper. Allow a 4 cm margin on the left and at least 4 lines in between each answer. This would facilitate the evaluator to write useful comments in the margin at appropriate places.
3. Write the responses in your own handwriting. Do not print or type the answers. Do not copy your answers from the Units/Blocks sent to you by the University. It is advised to write your answers in your own words as it will help in grasping the study material.
4. Do not copy from the response sheets of other students. If copying is noticed, the assignment will be rejected.
5. Write each assignment separately. All the assignments should not be written in continuity.
6. Write the question number with each answer.
7. **The completed assignment should be submitted within the due date** to the Coordinator of the Study Centre allotted to you. TMAs submitted at any other place and after due date will not be evaluated.
8. After submitting the TMA, get the acknowledgement from the Coordinator on the prescribed assignment remittance-cum-acknowledgement card. **We strongly suggest that you retain a copy of your answer sheets.**
9. In case you have requested for a change of Study Centre, you should submit your TMA only to the original Study Centre until the change of Study Centre is notified by the University.
10. This assignment is **valid from 1st January, 2024 to 31st December, 2024**. If you have failed in this assignment or fail to submit it by Dec, 2024, then you need to get the assignment for the year 2025, and submit it as per the instructions given in the Programme Guide.
11. **You cannot fill the examination form for this course** until you have submitted this assignment.

We wish you good luck.

ASSIGNMENT

Basic Microbiology Core Course in Biochemistry

Course Code: **BBCET-143**

Assignment code: **BBCET-143/TMA/2024**

Maximum marks: **100**

Note: Attempt all questions. The marks for each question are indicated against it.

Write the answers in your own words; do not copy from the course material.

PART-(A)

Marks: 50

1. Explain the contribution of following scientists in the field of microbiology: (5X2= 10)
 - (a) Louis Pasteur
 - (b) Francesco Redi
 - (c) Antonie van Leeuwenhoek
 - (d) Robert Koch
 - (e) Joseph Lister

2. (a) Compare bacteria, archea and eucarya in terms of their cell wall, membrane lipids, gas vesicles, mRNA introns and size of ribosomes. (5)
 - (b) Explain the basis of phenetic and genotypic system of classification. (5)

3. (a) Explain the lytic and lysogenic modes of replication of bacteriophages with a suitable diagram. (5)
 - (b) How is nucleic acid composition used for taxonomic determination? (5)

4. (a) Which three modes of reproduction are present in algae? (5)
 - (b) Write any five characteristic of a typical eubacteria. (5)

5. (a) Write a brief note on purple sulfur bacteria and give two examples. (5)
 - (b) What are Rickettsiae? Write their characteristics. (5)

PART- (B)

Marks: 50

6. (a) Explain the replication cycle of polio virus with suitable diagram. (5)

- (b) Write characteristics of Euglenophyta? (5)
7. (a) Illustrate economic importance of algae in food industry using any five examples. (5)
(b) What are rhizomorphs and sclerotia? Explain their role in fungi. (5)
- .
8. (a) Give a brief account of mycoses? (5)
(b) How do protozoa obtain their nutrition? (5)
9. (a) Differentiate between the following terms: (2X5)
(i) Passive and facilitated diffusion.
(ii) Nutrient medium and selective medium
10. (a) What is biofilm? How is it important? (5)
(b) Write the industrial process of yogurt production. (5)
