INSTRUCTIONS FOR ASSIGNMENTS:

- Assignments and Practicals carry 30% weightage in the continuous evaluation of a course. The Term End Examination carries 70% weightage. Hence, the marks/grade you get in your assignments and practicals will be counted in your final result. You are, therefore, advised to take assignments and practicals seriously, complete and submit them in time.
- 2) You must remember that assignments and practicals are compulsory. You will not be allowed to appear for the Term End Examination for a course if you do not submit the specified number of assignments and complete the practicals in time for that course.

Instructions for Tutor Marked Assignments:

- The validity of the assignment is ONE YEAR only. If you fail to submit your assignments before the due date of the particular session, then you have to attempt the fresh set of assignments of subsequent sessions (e.g. if a student of July 2020 session fails to submit her/his assignments till 30th March 2021, then s/he will have to attempt the fresh assignments of July 2020 session). Similarly, those who take admission in January session have to attempt the assignments of January session only. If they fail to submit their assignments before the due date of the particular session, they are supposed to attempt the fresh set of assignments of subsequent January session (e.g. if a student of January 2021 session fails to submit her/his assignments till 30th September 2021, s/he will have to attempt the fresh assignments of January 2022 session).
- 2) Write your Enrolment Number, Name, Full Address and Date of Dispatch at the top right end corner of the first page of your answer sheet.

3) Write the Programme Title/ Code, Course Title/Code, Assignment Number and Name and Code of the Study Centre on the left-hand corner of the first page of your answer sheet.

The top of the first page of your answer sneet	for each assignment should be as follows:
Programme Title/Code	. Enrolment No
Course Title/Code	.Name
Assignment Number	Address
Study Centre (Code)	
Study Centre (Name)	.Date

(**Note:** Candidates are required to follow this format strictly otherwise the assignments may not be evaluated.)

- 4) Your answer sheet should be complete in all respects. Make sure that you have answered all the questions in an assignment before you submit them. Incomplete answer sheets will bring you poor grades/marks.
- 5) Do not just reproduce your answers from the units. If you reproduce from units, you will get a Zero.
- 6) Do not copy from the response sheets of other students. If copying is noticed, the assignments of such students will be rejected.
- 7) Typed and computer print assignments are not permissible.
- 8) Use only foolscap size paper for you answer, ordinary writing paper, neither too thick nor too thin will do.
- 9) Leave 3 inch margin on the left and at least 4 lines in between each answer in an assignment. This will enable your Counsellor to write useful comments at appropriate places. Write question number with each answer.
- The evaluated assignments will be returned to you by the Coordinator of your Study Centre. This will also include copies of assignment sheets containing global comments of the evaluator on your performance in the assignments. This will enable you to improve in your future assignments as well as the Term End Examinations.
- 11) The Tutor Marked Assignments should be sent to the Coordinator of the Study Centre allotted to you.

Blocks: 1 to 5

Units: 1to18 Total Marks: 70

Note: Answer all questions.

1. Read the passage carefully and answer the questions given below. (2X10= 20 Marks)

In the end, almost no place was spared. When the Spanish influenza virus circled the world between 1918 and 1919, nearly every place that man had occupied prior to that was affected, with some of the exceptions being islands in the Bering Sea, the northern coast of Iceland, and American Samoa. Some experts today believe that the virus originated in China—the birthplace of many flu strains. It appears that the virus passed from birds to pigs and then to humans. Its first true victim has been lost to history.

What is known is that on March 11, 1918, an Army cook named Albert Mitchell reported to the infirmary of Camp Funston, Kansas. He had typical flu-like symptoms—a low-grade fever, mild sore throat, slight headache, and muscle aches. He was ordered to rest in bed. By noon of the same day, 107 soldiers at the base were sick with similar symptoms. Within two days, 522 people were sick. Military posts have always been fertile ground for outbreaks of contagious disease. Barracks bring people from many regions into close quarters under high stress. So it wasn't a surprise that ground zero of this epidemic was a military installation, or that the disease was next reported, on March 18, at several Army camps in Georgia.

The symptoms were mild, with few deaths. But the numbers of ill were high -- 2,900 cases out of 28,586 troops at the Georgia camps. The epidemic then hop-scotched from one military post to another in the eastern and southern United States, spilled into the civilian population, and reached the West Coast in late April, where an outbreak was recorded at San Quentin Prison. Influenza hit large cities exceptionally hard: in Philadelphia, 158 out of 1,000 people died; 148 out of 1,000 in Baltimore; and 109 out of 1,000 in the nation's capital.

The good news (if there was any) was that the disease peaked within two to three weeks after appearing in a given city. By then, however, it had already made a bigger and more fateful leap, across the Atlantic Ocean with hundreds of thousands of American soldiers going to join the Great War. Outbreaks were noted at an Army camp in Bordeaux, France, and in the port city of Brest in early April. By the end of the month it was at the Western Front, in the American, British, French and German armies. In May it arrived in England with troops returning from France. That month saw an outbreak in Madrid and Seville that caused a total death rate about twice normal for that time of year.

This epidemic, with roots in Asia and the United States, had become a pandemic (an epidemic that is spread worldwide). Spain was a neutral country during World War I. Because its news reports were uncensored, the Spanish outbreak received wide publicity, ultimately lending its name to both the pathogen and the pandemic itself. Even at the time, however, experts realized the name "Spanish flu" was entirely misleading as an indicator of the germ's origin.

The epidemic continued to move north and east, getting as far as Scandinavia and Poland. This "spring wave" reached India, arriving in Bombay on May 31 with a troop transport. Puerto Rico, part of the Brazilian coast, Indonesia, Australia and New Zealand experienced outbreaks in June. Influenza tends to

be seasonal, as the virus survives longest in cool, dry air and is most easily spread when people are crowded together -- all conditions favored by winter. It was unusual for the first wave of the 1918 pandemic to last as long as it did, and not surprising when things slowed down in August.

Information Analysis and Consolidation Centres

Information analysis and consolidation activities are not of recent origin. Its history can be traced back to the 19th century and according to Kertesz (1983) "are embedded in the tradition of 19th century scientists such as Beilstein and Gmelin, who accepted the challenge to bring some kind of order in the ever increasing flood of data, to make experimental findings conveniently available to other scientists" by means of handbooks and data compilations. According to Kertesz, Beilstein and Gmelin were one-man analysis centres in the truest meaning of the concept and their data

compilations are precursors of data books and handbooks of 20th century. However, the term 'Information Analysis and Consolidation' is of recent origin. General Information Programme (PGI) of UNESCO, while seeking solutions to the barriers to the use of information in developing countries, suggested 'information consolidation' as possible solution. PGI, UNESCO sponsored three meetings in the years 1975, 1978 and 1983 respectively on the above topic. In its second meeting, 'UNESCO Symposium on Information Analysis and Consolidation (1978)' the definitions and distinctions, particularly of the terms 'Analysis' and 'Information Consolidation Unit' in relation to their particular function, were discussed at great length. It was observed that 'Analysis' comprised a wide range of functions, such as abstracting, indexing, translation, reviewing, consolidation etc. However, a number of analysis centres do not always perform the consolidation function. It was also pointed out that 'information consolidation activities' can be performed within institutions or systems other than information analysis centres, even by individuals or groups of individuals. It was therefore decided that the term 'information consolidation activities' should be used. Individuals or groups of individuals performing information consolidation activities would each constitute an 'Information Consolidation Unit (ICU). It was pointed out that the most important consolidation function was evaluation, i.e. the retaining of reliable information only. Therefore, the resultant products of information consolidation activities are reliable and concise carrying usually an added value.

While origin of Information Analysis Centres (IACs) was due to untiring efforts of a few dedicated and devoted specialists, the present day Information Consolidation Units (ICUs) have been due to the interest and efforts of numerous sponsoring agencies belonging to both the private and public sectors. It is observed that most of these ICUs are located in the parent institutions and their activities are in conformity with the objectives of the parent institutions, though they may be sponsored or supported by other organizations. (Seetharama, 1997).

3) Prepare newspaper clipping service. Select any one newspaper and browse the newspaper for the last seven days or any 7 consecutive days. (3X5=15 Marks)

Select the news items covering the themes such as:

- 1. Education
- 2. Indian Economy
- 3. India's Foreign Policy

Cut the news items on the above mentioned themes and paste each of them on a separate sheet of paper (A4 Size paper). Give broad class numbers to all the clippings using DDC 19th edition. Arrange the clippings according to date wise and class number wise and put them in a file cover.
