1. Based on the information provided below develop a Website for National Institute of Medical Sciences (NIMS), Vellore with the following features :

30

- (i) Main page with banner and menu in frames
- (ii) The background colour in white, text in blue and headings in red

### **About NIMS**

For creating a country imbued with scientific culture, immediately after independence, the Government of India planned to establish a centre of excellence in medical sciences for medical education and research in the country. With the generous grant from New Zealand under Colombo Plan, the foundation stone was laid in 1952 and the institute was finally created in 1956 as an autonomous institution through Act of Parliament. The institute has comprehensive facilities for teaching, research and patient care. Teaching and research are conducted in 42 disciplines. At present, NIMS is not a single hospital but a conglomerate of hospitals like Centre for Ophthalmology, Cardiothoracic Surgery Centre, Neurosciences Centre and Medical Oncology Centre. NIMS cases to 1.5 million outpatients, 80,000 inpatients, 1,00,000 surgical operations every year.

## Objectives of NIMS

- To develop patterns of teaching in undergraduate and post graduate medical education in all its branches.
- To bring together in one place educational facilities of higher order in all important branches of health activity.
- To attain self-sufficiency in post-graduate medical education.

## Functions of NIMS

- Undergraduate and post graduate teaching in medical and related disciplines.
- Innovation in medical education.
- Producing medical teachers in the country.
- Research in medical sciences.
- Health care : preventive, promotive and curative.

## Teaching :

Offers a variety of undergraduate courses in medicine, nursing and related areas; post-graduate courses in virtually all the basic medical specialities.
