Libraries provide access to information, ideas and works of imaginations in any medium and regardless of frontiers. They serve as gateways to knowledge thought and culture offering essential support for decision-making, cultural development, research and life long learning by both individuals and groups. With the development of digital technology, libraries have undergone significant transformation. Today digital libraries and digital resources have become vital in management education.

Questions :

(a) As a management teacher, how do you ensure use of digital library resources by the student for their development ?

(b) What are the advantages and disadvantages of Digital libraries ?

7. Technology is playing a very significant role in enhancing learning at all levels. It is especially true in the case of Management Education. With the introduction of Information and Communication Technology in Management Teaching, the teacher can provide added value to the process of teaching and will enhance the response and learning experiences of the learners. **20**

Creating a balanced blend of educational technologies and ICT can bring in extremely sophisticated results compared to the conventional teaching and learning process.

Questions :

(a) Do you agree with the above observation ? How does Information and Communication Technology (ICT) help you to make your teaching effective ?

(b) Discuss the advantages of ICT in teaching and learning processes.
