BACHELOR'S DEGREE IN LIBRARY AND INFORMATION SCIENCE (REVISED)

(BLIS)

Term End Examination, June, 2020

BLI-225: COMMUNICATION SKILLS

Time: 3 Hours Maximum Marks: 70

GENERAL INSTRUCTIONS

- 1. All questions are compulsory. Each question carries 1 mark.
- 2. No cell phones, calculators, books, slide-rules, notebooks or written notes, etc. will be allowed inside the examination hall.
- 3. You should follow the instructions given by the Centre Superintendent and by the Invigilator at the examination venue. If you violate the instructions, you will be disqualified.
- 4. Any candidate found copying or receiving or giving assistance in the examination will be disqualified.
- 5. The Question Paper and the OMR Response Sheet (Answer Sheet) would be supplied to you by the Invigilators. After the examination is over, you should hand over the OMR Response Sheet to the Invigilator before leaving the examination hall. Any candidate who does not return the OMR Response Sheet will be disqualified and the University may take further action against him/her.
- 6. All rough work is to be done on the question paper itself and not on any other paper. Scrap paper is not permitted. For arriving at answers you may work in the margins, make some markings or underline in the test booklet itself.
- 7. The University reserves the right to cancel the result of any candidate who impersonates or uses/adopts other malpractices or uses any unfair means. The University may also follow a procedure to verify the validity of scores of all examinees uniformly. If there is substantial indication that your performance is not genuine, the University may cancel your result.

How to fill up the information on the OMR Response Sheet (Examination Answer Sheet)

- 1. Write your complete Enrolment No. in 9 digits. This should correspond to the enrolment number indicated by you on the OMR Response Sheet. Also write your correct name, address with pin code in the space provided. Put your signatures on the OMR Response Sheet with date. Ensure that the Invigilator in your examination hall also puts his signatures with date on the OMR Response Sheet at the space provided.
- 2. On the OMR Response Sheet student's particulars are to be filled in by blue/black ball pen also. Use blue/black ball pen for writing the Enrolment No. and Examination Centre Code as well as for blackening the circle bearing the correct answer number against the serial number of the question.
- 3. Do not make any stray remarks on this sheet.
- 4. Write correct information in numerical digits in Enrolment No. and Examination Centre Code Columns. The corresponding circle should be dark enough and should be filled in completely.
- 5. Each question is followed by four probable answers which are numbered (1), (2), (3) and (4). You should select and show only one answer to each question considered by you as the most appropriate or the correct answer. Select the most appropriate answer. Then by using blue/black ball pen, blacken the circle bearing the correct answer number against the serial number of the question. If you find that answer to any question is none of the four alternatives given under the question, you should darken the circle with '0'.
- 6. No credit will be given if more than one answer is given for one question. Therefore, you should select the most appropriate answer.
- 7. You should not spend too much time on one question. If you find any particular question difficult, leave it and go to the next. If you have time left after answering all the questions, you may go back to the unanswered question.
- 8. There is no negative marking for wrong answers.

(Q. Nos. 1-5)—Read the passage below and answer the questions:

COVID-19 is the infectious disease caused by the most recently discovered coronavirus. This new virus and disease were unknown before the outbreak began in Wuhan, China, in December 2019. COVID-19 is now a pandemic affecting many countries globally. The most common symptoms of COVID-19 are fever, dry cough, and tiredness. Other symptoms that are less common and may affect some patients include aches and pains, nasal congestion, headache, conjunctivitis, sore throat, diarrhea, loss of taste or smell or a rash on skin or discoloration of fingers or toes. These symptoms are usually mild and begin gradually.

Some people become infected but only have very mild symptoms. People can catch COVID-19 from others who have the virus. The disease spreads primarily from person to person through small droplets from the nose or mouth, which are expelled when a person with COVID-19 coughs, sneezes, or speaks. These droplets are relatively heavy, do not travel far and quickly sink to the ground. People can catch COVID-19 if they breathe in these droplets from a person infected with the virus. This is why it is important to stay at least 1 metre away from others. These droplets can land on objects and surfaces around the person such as tables, doorknobs and handrails. People can become infected-by touching these objects or surfaces, then touching their eyes, nose or mouth.

COVID-19 infected people can transmit the virus both when they have symptoms and when they don't have symptoms. This is why it is important that all people who are infected are identified by testing, isolated, and, depending on the severity of their disease, receives medical care. Even people confirmed to have COVID-19 but who do not

have symptoms should be isolated to limit their contact with others. These measures break chains of transmission. You can reduce your chances of being infected or spreading COVID-19 by taking some simple precautions: Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water.

Maintain at least 1 metre (3 feet) distance between yourself and others. Avoid going to crowded places because you are more likely to come into close contact with someone who has COVID-19. Avoid touching eyes, nose and mouth. Hands touch many surfaces and can pick up viruses. This means covering your mouth and nose with your bent elbow or tissue when you cough or sneeze. Then dispose of the used tissue immediately and wash your hands. Droplets spread virus. By following good respiratory hygiene, you protect the people around you from viruses such as COVID-19.

- 1. Where was COVID-19 first discovered?
 - (1) Rome

(2) Wuhan

(3) New York

- (4) Barcelona
- 2. Which of the following is not a symptom of COVID-19?
 - (1) Bleeding from nose
- (2) Sore throat
- (3) Loss of taste and smell
- (4) Fever and dry cough
- 3. How do we catch COVID-19?
 - (1) Through the infected droplets from the nose or mouth
 - (2) Through water supply
 - (3) Not eating enough fruits
 - (4) Not taking enough walk

	4.	Can people without symptoms	ransmit COVID-19?	
		(1) Only people showing symp	otoms can transmit	
		(2) Inflected people with no sy	mptoms cannot spread	
		(3) Infected person with or wi	thout symptoms can transmit	
		(4) Only going to crowd can to	ansmit	
	5.	Which one of the following prev	ents the spread of COVID-19?	
		(1) Wash hands with soap or	sanitizer	
		(2) Avoid crowded places		
		(3) Maintain distance from of	hers	
		(4) All of the above
