

B.Sc (NAUTICAL SCIENCE)

Term-End Examination

June, 2010

**BNA-014 : NAVIGATION-I
(TERRESTRIAL AND CELESTIAL)**

Time : 3 hours

Maximum Marks : 70

Note : All questions are compulsory. Use of Nories Or Burton's Tables and Nautical Almanac 1992 is permitted. Use BA chart-813. Non-programmable scientific calculator is allowed.

SECTION - I

1. Define *any two* of the following with sketches 5
where-possible :
 - (a) Declination
 - (b) D'lat
 - (c) SHA

2. A vessel left a position $01^{\circ}30' N, 033^{\circ} 20' W$ and 10
sailed on a course of $156^{\circ} (T)$ at speed of 17 Kts.
While sailing on above course after 24 hrs, her
position by GPS was found to be $04^{\circ} 58' S,$
 $030^{\circ} 58' W.$
Find set and drift experienced by the ship.

3. Indicate sun's position on observer's rational horizon sketch at GMT 06^h 30^m 30^s on 25th February 1992 on a ship in DR 35° 30' S, 050° 30' E. **10**

Also find exact LHA and declination of sun at this time.

4. From following deviation table, find :

(a) True course if compass course is 134° \odot , VAR : 3°E. **2.5**

(b) Find compass course if true course is 134° \oplus , VAR : 3°E **2.5**

Ship's head by Compass	Deviation
110° \odot	5° W
120° \odot	3° W
130° \odot	Nil
140° \odot	3° E
150° \odot	4° E

5. Define *any two* of following with sketches : **5**

- (a) Parallax in altitude
(b) True Altitude
(c) Dip

SECTION - II

6. Define following : 7.5
- (a) Small scale chart
 - (b) Admiralty chart catalogue
 - (c) Variation

7. Write the meaning of following chart symbols used on metric chart : 7.5

- (a)  (b) 
- (c)  (d)  OIL
- (e) 

8. (a) At 1300 hrs Dondra head LT. Ho. and Weligama LT. Ho. were equidistant with distance of 11.5 NM. Find ship's position at 1300 hrs. 3
- (b) From above 1300 hrs position, find Gyro course to steer to pass Galle Lt. Ho. 8 NM OFF, counteracting a current setting 270° (T) \times 3 Kts. 7

Also find time and bearing when Galle Lt. Ho. will be abeam [GE : 2° L, Ship's spd: 16 Kts].

9. (a) At 0900 hrs Barberyn Lt. Ho. and Hiniduma Kanda Peak were in transit bearing 113°C . At same time distance from Barberyn Lt. Ho. was 10 NM. Find Gyro compass error and Ship's position. 5
- (b) From 0900 hrs position as in (a), find Gyro course to steer to pass Colombo SBM (Fl 10^s) 10 NM OFF. Current Expected in this area 060°T at 2 Kts, wind W'ly and leeway 4° . [Ship's speed : 12 Kts] 5
-
