

**M.Sc. IN LEATHER GOODS AND
ACCESSORIES DESIGN (MSCLGAD)**

Term-End Examination

June, 2011

00454

MFW-052 : COMPUTER APPLICATION

Time : 3 hours

Maximum Marks : 70

Note : Attempt any five questions.

All questions carry equal marks.

1. (a) What is 'Generation' in terms of computer? 10
Explain all the Generations of computer.

2. (a) What are the Full form of the following ? 10
(i) ENIAC (ii) EDVAC
(iii) ADSAC (iv) WWW

3. (a) What is the meaning of Network ? Explain 10
different types of Network.
(b) What do you mean by topology ? How many
types of topology are used in Network.

4. (a) What is Mail Merge ? Explain the steps that are involved in Mail Merge. 10
- (b) What is Macro ? How to create Macro in MS-Word ?

	A	B	C
1.	40	39	32
2.	30	21	34
3.	98	76	54

Choose any three cell and perform if condition, along with are operated in MS-Excel.

5. (a) The first electronic computer in the world was : 2x5=10
- (i) UNIVAC (ii) EDVAC
- (iii) ENIAC (iv) All of above
- (b) ALU is
- (i) Arithmetic Logic Unit
- (ii) Array Logic Unit
- (iii) Application Logic Unit
- (iv) None of above
- (c) Artificial Intelligence is associated with which generation ?
- (i) First Generation
- (ii) Second Generation
- (iii) Fifth Generation
- (iv) Sixth Generation

- (d) Which operation is not performed by computer ?
 - (i) Inputting
 - (ii) Processing
 - (iii) Controlling
 - (iv) Understanding
- (e) Software in computer :
 - (i) Enhances the capabilities of the hardware machine.
 - (ii) Increase the speed of central processing unit.
 - (iii) Both (i) and (ii).
 - (iv) None of above.

6. (a) Which language is directly understood by the computer system ? 10
- (i) Machine language.
 - (ii) Assembly language.
 - (iii) High level language.
 - (iv) None of above.
- (b) The difference between memory and storage is that memory is _____ and storage is _____.
- (i) Temporary, permanent
 - (ii) Permanent, temporary
 - (iii) Slow, fast
 - (iv) All of above

- (c) Which statement is valid ?
- (i) 1 KB = 1024 bytes
 - (ii) 1 MB = 2048 bytes
 - (iii) 1 MB = 1000 kilobytes
 - (iv) 1 KB = 1000 bytes
- (d) Different components and the motherboard of a PC unit are linked together by sets of parallel electrical conducting lines. What are these lines called ?
- (i) Conductors
 - (ii) Buses
 - (iii) Connectors
 - (iv) Consecutives
- (e) An HDD may have more than one operating system within the same partition.
- (i) True
 - (ii) Logical
 - (iii) Active
 - (iv) Extended

7. (a) What type of device is a network MODEM ? **2x5=10**
- (i) Both
 - (ii) Output
 - (iii) Input
 - (iv) None of the above
- (b) Before a disk can be used to store data, it must be _____.
- (i) Formatted
 - (ii) Reformatted
 - (iii) Addressed
 - (iv) None of the above

- (c) A thread is a _____.
- (i) Data
 - (ii) Bytes
 - (iii) Control
 - (iv) Input device
- (d) FAT stands for :
- (i) File Accommodation Table
 - (ii) File Access Tape
 - (iii) File Activity Table
 - (iv) File Allocation Table
- (e) Operating System is also known as :
- (i) database
 - (ii) system software
 - (iii) hardware
 - (iv) application software
-
